FIX IT FAST
AND FIX IT RIGHT!**

ENHANCED VALUE

Magnetek's experienced BrakeMD repair team will get your brake back up and running quickly with factory original parts and to factory specifications.

- Our experienced repair team will completely disassemble the brake and inspect all parts for wear and damage. All worn or damaged parts will be replaced, and the brake will be reassembled using all new assembly hardware such as nuts, bolts, washers and cotter pins.
- All painted parts will be cleaned and repainted (except actuators). After reassembly, all labels, decals and nameplates will be replaced.
- Upon completion, the brake will be thoroughly tested and recertified to original specifications.
- We also offer modification services. Need to add a hand release, external torque spring, limit switch, etc.? We can do it at the same time as the repair, or as a standalone service.

Receive a quote immediately by phone! Typical turn-around is 10 days upon receipt of your brake at one of our repair facilities, conveniently located in Menomonee Falls, WI and Mississauga, Ontario.
