Patch Notes

Revision 2.004.1

(updated October 23, 2003)

G+ / VG+ Series 2 - 14980 Software Support.

- This Patch provides support for Flash ID 14980, as well as providing the most current database.

This patch is recommended for all users.

French-Canadian Regional Settings.

- This Patch fixes a problem due to French-Canadian Regional settings causing invalid data files. Please re-transfer the data from your logger, or, if necessary, e-mail the problematic Log files to Electromotive for assistance.

If your Regional settings are set to "English (United States)", this does not affect you.
